\$5 parking tags introduced at St. George campus

A new weapon, a \$5 Metropolitan Toronto parking tag, has been added to the arsenal of those who guard against unauthorized parking on the St. George campus.

"Till now the practice has been to tow away cars not displaying a valid permit or daily parking ticket," says M.A. Malcolm, director of administrative services. "While effective, this is time-consuming."

Hence the \$5 tags, which are being tucked under the windshield wipers of unauthorized parkers by members of the University security and parking staffs, who have been appointed special constables for the purpose.

Warning: once a tag has been issued, "discussion about its validity becomes a court matter, as with any other tag", Malcolm says.

Erindale appointments

Professor Richard W. Van Fossen has been appointed associate dean of humanities and part-time studies at Erindale College for a three-year period, beginning July 1, 1979. He will succeed Dean Desmond Morton, who has accepted a one-year extension of his appointment from July 1, 1978 to June 30, 1979.

Dean Morton has also accepted an extension of his appointment as vice-principal (academic) for the same one-year period.

Trinity wants your books

The Friends of the Library, Trinity College are planning their third annual book sale, to be held Oct. 24-25 at the college. Should house or cottage cleaning turn up any castoffs, they would be delighted to dispose of them. All kinds of books, hard cover or paperback, on any subject are welcome.

Storage space is available now, so if you have any books to donate, contact the Trinity Convocation office, 978-2651 or Helen Bradfield at 489-1959.

All proceeds of the sale will be given to the Trinity Library.

Hispanic Studies changes its name

Effective July 1, the Department of Hispanic Studies will change its name to the Department of Spanish & Portuguese.

"This change reflects the growing importance of matters Portuguese and Brazilian in our academic program," explains Professor K.L. Levy, chairman of the department.

Line missing from President's letter

A line — the better part of a sentence — went missing from paragraph 5 of President John Evans' letter to colleagues about the Update campaign in the June 5 issue of the *Bulletin* ("Update helps maintain quality, President points out in letter", page 3).

The paragraph should have read:

"During these last two years of my presidency, I have enjoyed the opportunity of explaining the University's position to the external community. The response and interest has been more than gratifying."

Our apologies to Dr. Evans and to our readers.

Number 34, 31st year

'Libraries are big business so they need strong administrators'

The Faculty of Library Science celebrates its 50th anniversary

by Pamela Cornell

There was a time when librarians were typified by the stern-faced, grey-haired lady with wire-rimmed glasses who shushed anyone daring to disrupt the musty silence.

But the "custodian" image has been out of date for a long time, says Frances Halpenny, dean of the Faculty of Library Science, which marks its 50th anniversary this year.

"Now the emphasis is on service . . . on relating to people as individuals and being aware of their needs," she says. "It's very, very important to be able to deal with all kinds of people, particularly in public libraries where the users include blind people, young children working on school projects, and immigrants who can't speak English."

Public librarians also have to be able to organize such community-oriented projects as films, discussion groups, art

exhibitions, children's craft classes, and speakers on a wide variety of topical subjects.

"It's very much a case of reaching out to attract more users to the benefits of library services," says Dean Halpenny.

Not all graduates of the faculty end up working in libraries. More and more are doing research for authors, periodicals, and corporations, or are going into administration, like Mary Shepherd, the dean's assistant.

"With the information explosion, libraries and librarians certainly aren't what they used to be," says Shepherd. "Here at the faculty, students seem to be specializing more . . . in such areas as maps, medicine, music, art, and law. And there are an increasing number of courses in information science."

The latter subject area includes library automation, microforms, mathematical linguistics, statistical procedures, telecommunications,

information storage and retrieval, computer systems design and analysis, and the psychology of communication.

In the faculty's mandatory first year courses, the study of information science is done in such a way as to emphasize its contribution to library service rather than its technical aspect.

"These days libraries are big business, with large budgets and sophisticated technology, so they need strong administrators," Shepherd says. "Unfortunately, prospects can be bleak for anyone who's ambitious enough to get a master's degree in business administration after having trained as a librarian."

"Chances are, they'll be full of new ideas which will be resisted by the person at the top who's been there for years and insists on doing things the way they've always been done. It's a frustrating situation."

'Consult' with UTFA re dismissals, don't 'negotiate', council decides

Should it become necessary to dismiss professional librarians for fiscal reasons, the Governing Council "will consult fully" (rather than "negotiate") with the U of T Faculty Association (UTFA) about the procedures involved, the council decided at its last meeting of the academic year, on June 15.

The distinction between consultation and negotiation with UTFA had prevented approval of the revised *Report of the Working Group to Formulate Policies for Librarians* at the council's May meeting.

As well as approving the report, the council approved a merit review program for non-academic, non-unionized staff; approved the revised *Grading Practices Policy*; and decided to close the Health Service Infirmary at the end of 1978-79. In addition, the memberships of the council's standing committees and sub-committees for the next year were approved, and President John Evans, whose last council meeting it was, celebrated by dedicating an apposite piece of doggerel to the council's secretary, David Claringbold, and his staff.

The report for librarians (*Bulletin*, Nov. 7, 1977) sets out policies on such matters as appointment procedures, appointment of administrators in the library, criteria for promotions, dismissal, and leaves, and the appropriate rank structure for librarians.

The report was brought before the council one month ago, having been revised after discussions between the working group and the senior administration and approved by Academic Affairs. Instead of negotiation with

Six years later, the June 15 meeting of the Governing Council was President John Evans' last

UTFA about procedures related to dismissal for fiscal reasons, as the revised report recommended, the Executive Committee advised consultation, thereby overturning what was in effect an Academic Affairs recommendation and incurring the displeasure of the working group and UTFA. The Academic Affairs Committee had already voted down a similar motion, put forward by the senior administration, at its March 30 meeting.

In order that the contentious sentence could be re-worded, it was sent back to Academic Affairs whose solution was to propose deferring "until a later date" the determination of how dismissal procedures would be developed.

The Executive Committee found that recommendation unacceptable, as well, and the report went before this month's council meeting essentially as it had been

presented at the previous meeting. Several members of the academic staff argued against it, including Professor Michael Bliss, chairman of Academic Affairs, who registered a protest against the Executive Committee for having twice put forward its own amendment in preference to the recommendations of another committee. The report was approved by a substantial majority.

The merit review program for non-academic staff still has some problems to be ironed out and should not be approved at this time, said administrative staff representative to the council James Kraemer.

"The staff association executive has defaulted, in my view, in not explaining this program to their constituents," Kraemer said.

Conceding that problems with the program do exist, President John Evans said that "the most important element is whether staff working under it will feel satisfied with the policy". He was sure they would, he said.

According to the Personnel Department: "The key feature of the new system is that merit adjustments will no longer be uniformly granted on the first of July each year."

"Instead, eligibility for merit will be determined individually, based on the time interval which has elapsed since the staff member was hired or most recently received a probationary, promotional, or merit increase. Economic increases and corresponding adjustments to salary ranges will continue to be implemented on July 1 of each year."

Continued on Page 2

Job Openings

Below is a partial list of job openings at the University. Interested applicants should read the Promotional Opportunity postings on their staff bulletin boards, or telephone the personnel office for further information. The number in brackets following the name of the department in the list indicates the personnel officer responsible. Please call: (1) Sylvia Holland, 978-6470; (2) Penny Tai-Pow, 978-5468; (3) Manfred Wewers, 978-4834; (4) Ann Sarsfield, 978-2112; (5) Beverly Chennell, 978-7308.

Library Technician III (\$8,180 — 9,620 — 11,070)
Law (2)

Library Technician IV (\$9,000 — 10,590 — 12,180)
Law (2)

Administrative Assistant III (\$15,820 — 18,620 — 21,410)
Academic Services, Faculty of Medicine (4), Physical Plant (3)

Personnel Assistant (\$11,010 — 12,960 — 14,900)
Employment & Staff Development (5)

Draftsman III (\$13,500 — 15,890 — 18,270)
Physical Plant (3)

Programmer III (\$15,820 — 18,620 — 21,410)
Computer Centre (3), Computer Research Facility (3), Student Record Services (1), Business Information Systems (5)

Programmer IV (\$19,490 — 22,930 — 26,370)
Library Automation Systems (3)

Research Clerk (9,000 — 10,590 — 12,180)
Preventive Medicine & Biostatistics (4)

Deputy Chief of Police (\$13,500 — 15,890 — 18,270)
Physical Plant (3)

PhD Orals

Since it is sometimes necessary to change the date or time of an oral examination, please confirm the information given in these listings with the Ph.D oral office, telephone 978-5258.

Wednesday, June 21

Allan Hugh MacDonald, Department of Physics, "On a Relativistic Density Functional Formalism." Thesis supervisor: Prof. S.H. Vosko. Room 309, 63 St. George St., 10 a.m.

Ibrahim Yusuf Najjar, Department of Philosophy, "A Study of Desire in Russell's Technical and Non-Technical Writings." Thesis supervisor: Prof. J.G. Slater. Room 111, 63 St. George St., 2 p.m.

Thursday, June 22

Benjamin Camins, Department of History, "British Expansion in Afghanistan, Burma, and Malaya, 1880-1885: A Study of the Imperial Decision-Making Process." Thesis supervisor: Prof. M. Israel. Room 111, 63 St. George St., 10 a.m.

Friday, June 23

Robert Alan Mandel, Department of History, "J.B. André Godin and the Familistère of Guise, 1817-1888." Thesis supervisor: Prof. M.R. Marrus. Room 111, 63 St. George St., 2 p.m.

Monday, June 26

Walter George Rosocha, Department of Electrical Engineering, "Adaptive Microprogramming and Processor Modeling." Thesis supervisor: Prof. E.S. Lee. Room 309, 63 St. George St., 10 a.m.

Fedel Frank M. Saccomanno, Department of Civil Engineering, "A Wage-Based Model of Residential Site Value Transfer." Thesis supervisor: Prof. R.G. Rice. Room 307, 63 St. George St., 10 a.m.

Thursday, June 29

George Ghanotakis, Department of Philosophy, "The Notion of 'Essence' (Wesen) in Heidegger's Thought: Heidegger's Phenomenological Explanation of the Ecstatico-Horizontal Dimension of Intelligibility." Thesis supervisor: Prof. T. Langan. Room 111, 63 St. George St., 10 a.m.

Philippe Albert Rossignol, Department of Microbiology & Parasitology, "Studies on the Bionomics, Behaviour, Sensory Apparatus, and Morphology of *Eucoethra underwoodi* Underwood (Diptera: Chaoboridae)." Thesis supervisor: Prof. S.B. McIver. Room 309, 63 St. George St., 10 a.m.

Friday, June 30

Martin J. Yaffe, Department of Medical Biophysics, "Fan-Beam Computed Tomography." Thesis supervisor: Prof. M.J. Bronskill. Room 309, 63 St. George St., 10 a.m.

Tuesday, July 11

Howard Chung-ho Ng, Department of Chemistry, "Fundamental Photochemical Processes in Polymers: Studies on Polyisoprenes and Styrene-Ketone Copolymers." Thesis supervisor: Prof. J.E. Guillet. Room 309, 63 St. George St., 10 a.m.

Wednesday, July 12

Marvin Mandelbaum, Department of Industrial Engineering, "Flexibility in Decision Making — An Exploration and Verification." Thesis supervisor: Prof. A.A. Cunningham. Room 309, 63 St. George St., 10 a.m.

Friday, July 14

James Angus Ogilvy, Department of Comparative Literature, "Visions of God: Accommodation and the Reader in the Epics of Homer, Virgil, Vida and Milton." Thesis supervisors: Profs. P. Parker and P. Hughes. Room 309, 63 St. George St., 2 p.m.

Monday, July 17

Robert Edward Whaley, Faculty of Management Studies, "The Effect of Personal Taxation on Security Pricing." Thesis supervisor: Prof. M.J. Gordon. Room 307, 63 St. George St., 10 a.m.

Edwin Hsuan Kao Yen, Faculty of Dentistry, "Organ Culture of Adult Mouse Molar Periodontium: Effect of Oxygen Tension on Protein Synthesis." Thesis supervisors: Profs. A.H. Melcher and J. Sodek. Room 309, 63 St. George St., 10 a.m.

Kamalakar Vinayak Pradhan, Faculty of Management Studies, "Capital Asset Pricing Models under Uncertain Inflation: Theory, Tests, and Applications." Thesis supervisor: Prof. M.J. Gordon. Room 309, 63 St. George St., 2.30 p.m.

Connaught awards announced

The Connaught Committee has awarded 17 research grants from the January competition to U of T faculty. Eleven of these grants are to faculty already established at the University. The remaining six awards are to new staff members who are in their first two years of appointment.

Decisions regarding Connaught grants are reached on the basis of a review to assess the merit and feasibility of the proposals. Another factor in the decision process is the limited funds available to the Connaught Committee; this lack of funds made it impossible to award grants for many deserving proposals.

Recipients of awards are:

Professor R.L. Armstrong, Department of Physics, "Hydrogen Storage in Transition Metal Antifluorite Crystals";

Dr. R.L. Blair, Department of Otolaryngology, "Auditory Brainstem Evoked Potentials-Normative Properties in Relation to Aging";

Professor Rudy Boonstra, Life Sciences, Scarborough College, "Population Processes in Small Mammals: An Experimental Approach";

Professor P.W. Brumer, Department of Chemistry, "Nonlinear Mechanics and Intramolecular Energy Transfer";

Professors K.K. and K.L. Dion, Life Sciences, Scarborough College, and Department of Psychology, "Minority-Group Responses to Prejudice and Discrimination: A Psychological Perspective";

Dr. J.O. Dostrovsky, Department of Physiology, "Neural Mechanisms of Pain: Studies on Trigeminal Nucleus Caudalis Neurones";

Dr. M.C. Ganoza, Banting & Best Department of Medical Research, "Site Specific Mutagenesis — A Probe to Study the Nucleotide Sequences That Regulate Initiation of Protein Synthesis";

Professor Cheng Hsiao, Institute for Policy Analysis and Department of Political Economy, "Econometric Methods for Models in which Insufficient Information Precludes the Application of Previously Developed Techniques";

Professor J.V. Iribarne, Department of Physics, "Chemical Analysis by Ion Evaporation-Mass Spectroscopy

Technique, with Particular Application to Pharmacological or Biological Compounds";

Professor G.A. Kenney-Wallace, Department of Chemistry and Scarborough College, "A Study of the Fundamental Molecular Dynamics in Fluids via Subpicosecond Laser Spectroscopy";

Professor Martin Moskovits, Department of Chemistry and Erindale College, "Chemistry and Catalysis by Small Metal Clusters";

Professor R.R. Reisz, Department of Zoology and Erindale College, "Origin and Adaptive Radiation of Paleozoic Reptiles";

Professor Joseph Repka, Department of Mathematics, "Group Representation and Base Change";

Professors Bruce Sinclair and T.H. Levere, Institute for History & Philosophy of Science & Technology and Department of History, "Science and Technology in Society: Ontario 1840-1940";

Professor T.T. Tidwell, Department of Chemistry and Scarborough College, "Steric Crowding in Organic Chemistry";

Dr. R.W. Wald, Department of Medicine, "I. Pacing-Induced Automaticity in Sheep and Dog Ventricles, and II. Ventricular Synchrony of Excitation and Fibrillation";

Professor M.A. Winnik, Department of Chemistry, "The Dynamics of End-to-End Ring Closure in Macromolecules".

Summer Bulletin schedule

Two issues of the *Bulletin* will be published during the summer. The first will appear on Monday, July 17, the second on Monday, Aug. 21. The deadline for receipt of items for inclusion in these issues is one week before the issue in which they are to appear.

'Consult' with UTFA re dismissals

Continued from Page 1

The program was approved and will become effective on July 2. It will have no effect on this year's July merit increases.

The chairmen of the council's standing committees during 1978-79 will be: James Kraemer, *Business Affairs*; Sonja Sinclair, government appointee, *External Affairs*; Sally Henry, alumna, *Internal Affairs*; John Whitten, alumnus, *Planning & Resources*; and Professor Dennis Duffy, teaching staff, *Academic Affairs*.

At meeting's end, the revised *Grading Practices Policy* having been approved and the Infirmary condemned, President Evans thanked the Governing Council Secretariat for its labours during the last six years by reciting a piece of doggerel written by Lord Hankey, secretary of the

British cabinet, about the time of the defeat of Lloyd George in 1922:

"And so while the great ones depart to their dinner/The Secretary stays, growing thinner and thinner./Racking his brains to record and report what he thinks that they think that they ought to have thought."

Said the council chairman, Marnie Paikin, of Dr. Evans: "Our conviction and our will to carry on will be our testimonial of our gratitude to him."

Said government appointee John Bassett of Dr. Evans: "I see in the paper where he said he wouldn't accept a cabinet position even if it were offered him. My advice to him is this — in politics, if offered a position, *grab it*."

Governing Council — June 15 (including action taken at committee level)

- amended and approved *Report of the Working Group to Formulate Policies for Librarians*
- approved 1978-79 memberships of Governing Council's standing committees and subcommittees
- approved revised *University Grading Practices Policy*
- approved *University Inventions Policy*
- approved closing of Health Service Infirmary at end of 1978-79 academic session
- approved *Merit Review Program* for administrative staff
- approved 1978-79 budget for University of Toronto Press
- approved disestablishment of the Department of Sanskrit & Indian Studies and the Institute of Applied Statistics

Half a century later, library science budget has grown from \$10,250 to \$1.3 million

From a little school with a full-time academic staff of two, a budget of \$10,250, and an enrolment of 32, the Faculty of Library Science has grown over the past 50 years to a full-time academic staff of 24, a budget of about \$1.3 million, and an enrolment of about 270.

It all began on the third floor of the Ontario College of Education where, on Sept. 25, 1928, Library School director Winifred Barnstead and lecturer Bertha Bassam launched the first one-year diploma program. Prospects were bright. Of the 31 students who graduated in 1929, 28 immediately found library jobs.

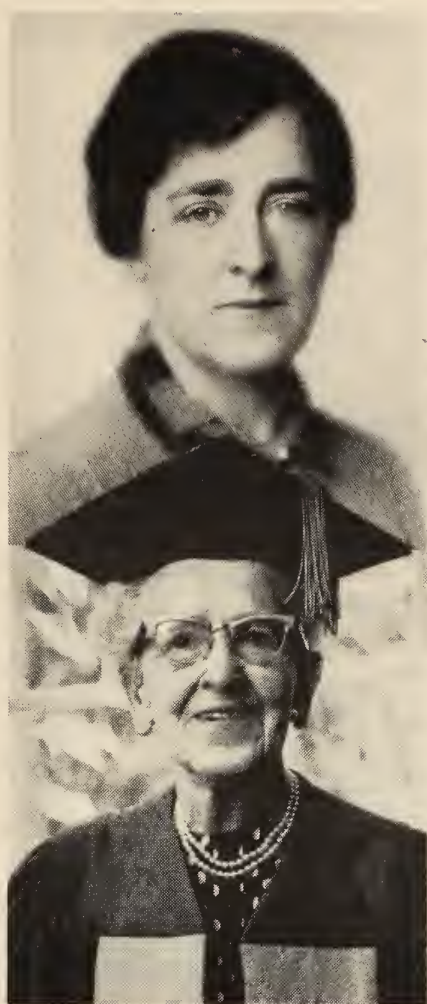

Seven years later, the program was divided into two sections, one leading to the Bachelor of Library Science for those who already had a degree, and the other leading to the University Diploma in Librarianship for those entering with high school standing.

During its early years, the school reflected the attitudes and traditions of vocational education. Gradually though, more emphasis was placed on books and less on the technical side of the work.

The diploma course was offered for the last time in 1945-46 and withdrawn formally in 1954. Meanwhile the Master of Library Science degree was introduced in 1950-51 and, when Esther Wagner Jacobsen graduated from the program in 1951, it was the first time an MLS degree had been conferred by a Canadian university.

That same spring, Winifred Barnstead retired after 23 years as director of the Library School. Bertha Bassam took over for the next 13 years, retiring in 1964, after 36 years with the school. She was succeeded by Brian Land, the first graduate of the school to become its director.

Since its establishment in 1928, the Library School had come under the jurisdiction of the Ontario Department of Education, which was responsible for housing and financing the school, and the University, which was responsible for staffing, admission standards, and diploma and degree requirements. In 1965, the school became a separate teaching division within the University, ending 37 years of administrative ties with the College of Education. At the same time, the name was changed to the School of Library Science.

Then and now: Winifred Barnstead, first library science head

A move to a three-storey building at 167 College St. was made in September 1965 and, by January, the school was occupying the first two floors of an adjoining building at 256 McCaul St. This permitted an expansion of enrolment, which had been limited to about 100. Highest enrolment in the BLS program was in 1968-69, when 217 degrees were granted.

The one-year BLS program, first offered in 1936-37, was replaced in the fall of 1970 by the two-year MLS program. The first year of the MLS program consists of mandatory core courses and the second consists totally of elective courses, chosen according to the student's area of specialization.

The PhD program was approved by

the Senate in 1971 and the first doctorate in library science to be awarded in Canada was conferred by the University on Claire S. England in 1974.

The school moved in June 1971, to its own specially-designed building at 140 St. George St. Nine months later, the School of Library Science became the Faculty of Library Science, with the director becoming the dean.

Brian Land resigned as dean in 1972 to become a full-time member of the teaching staff. His successor is Frances Halpenny, general editor of the *Dictionary of Canadian Biography* and an associated instructor at the faculty since 1967. She steps down Dec. 31 to divide her time among teaching, the *Dictionary*, and the U of T Press.

Faculty assets include one of the best collections of professional literature in North America, data-processing equipment, and media facilities that include a television studio and production centre.

A program of continuing education courses and workshops was launched in 1973 and the Centre for Research in Librarianship was established in 1975 with John Wilkinson as its first director.

The faculty attracts students from across the country and around the world. Over the past six years, enrolment has ranged from a high of 333 in 1972 to a low of 276 in 1977. For every three students who apply, only one is admitted.

The faculty is the largest of Canada's seven library schools, offering more elective courses and averaging 100 graduates a year, compared to between 40 and 60 at the others. The number of library science degrees and diplomas granted by the University from 1928 to 1978 totalled nearly 3,800 and accounted for more than 40 percent of all those awarded by Canadian library schools.

A placement service is maintained by the faculty to help graduates find positions but current budget restraints for libraries have had a depressing effect on employment prospects. An estimated 25 of the 98 who received their MLS in 1977 were still looking for a full-time professional job as of Dec. 31.

'Libraries are big business'

Continued from Page 1

John Wilkinson, director of the faculty's Centre for Research in Librarianship, disagrees.

"Library boards are pretty ruthless about promoting people out of the way . . . say to heading up bibliography or special collections. Most people think of this as a genteel profession, but it looks different from the inside."

Professor Wilkinson describes his own job as "bringing together a good idea, a good person, and good funding".

The centre recently produced "a quality-controlled access tool" on all Canadian-produced books and periodicals, including where to buy them and for how much. Titled *Canadian Selection: books and periodicals for librarians*, it was published in March by the U of T Press.

A catalogue of Canadian-produced filmstrips is currently being compiled at the centre, with financial assistance from the Ontario Ministry of Education and the National Film Board. Also in the works is a Canada Council-sponsored

study of user attitudes to the computerized microcatalogue that replaced the card catalogue system at the Robarts Library about a year ago.

A research proposal from the Council of Ministers of Education is now under consideration. It would involve cataloguing all Canadian-produced non-print materials such as cassettes, loops and discs. The task would be staggering, says Prof. Wilkinson.

Being a man places Prof. Wilkinson in a minority group within his profession. The province's first courses in librarianship, offered by the Department of Education from 1911 to 1927, were attended by 454 women and six men. In 1924, the University of Western Ontario introduced a "library and secretarial science" course "designed especially to meet the needs of women". Even as recently as the past academic year, there were only 43 men among the 268 students enrolled in the U of T Faculty of Library Science.

Male librarians, however, constitute

one minority group which has never been oppressed.

"They almost invariably made their way to the top," admits Wilkinson. "It used to be a vicious closed circle."

Dean Halpenny says the situation "has been a source of perturbation", adding that responsibility belongs to library boards "who tended to think it inappropriate to place women in senior executive positions".

Women librarians have gradually been acquiring more credibility. For example, they now occupy the library headships at Queen's, Guelph, and York Universities.

"It's particularly difficult for women to advance in academic libraries, as it is for them to move up the ladder in the university generally," says Wilkinson. "And when they do make it to the top, I don't think it's tokenism. There are too many who are too good. I suspect though, that there's something in that saying about women having to be twice as good as men to get ahead."

Library News

Collections move to Science & Medicine

The Hygiene Library has been closed and the collection is being moved to the Science & Medicine Library during the week of June 19. The books will be integrated with the main collection as quickly as possible but in the meantime will be available for use. Outstanding hygiene book and periodicals should be returned to the Science & Medicine Library.

The Food Sciences Library will be closed after Friday, June 23. The collection will be moved to the Science & Medicine Library during the week of June 26 and will be immediately available. Food sciences books and periodicals outstanding after June 23 should be returned to the Science & Medicine Library.

Library cards still valid

Your current library card will be validated for use during 1978-79. Please do not destroy it.

From Sept. 1, 1978 a charge of \$2 will be made to replace a lost or damaged library card.

Briefs favour more structure

Briefs submitted so far to the Decanal Committee for the Review of the Undergraduate Program in the Faculty of Arts & Science have been "almost unanimous" in calling for a more highly structured curriculum for arts and science students, committee member Leo Zakuta informed an open meeting of the committee on June 5.

"There is a feeling that the program should be less wide open — that it should require a student to concentrate in depth on one or two subjects," said Professor Zakuta, Department of Sociology.

The meeting was held at Woodsworth College and was arranged to allow part-time students to tell the committee what they would like to see changed, and what retained, in the current program.

Events

Monday, June 19

Summer athletics and recreation. Programs are available on all three campuses. Information and membership rates: Erindale College, athletics office, 828-5269; St. George campus, Department of Athletics & Recreation, 978-3437; Scarborough College, Department of Recreation, 284-3121.

Guitar '78, lunchtime concerts. Free concerts will be given each day during the course of the week. MacMillan Theatre, Edward Johnson Building. 11.30 a.m. to 12.45 p.m.

Liona Boyd, concert, *Guitar '78*. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information 978-3744.

William Morris, 1834-1896: aspects of his life and work, exhibition. Thomas Fisher Rare Book Library to mid-July. Catalogue available.

Tuesday, June 20

Leo Brouwer, concert, *Guitar '78*. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information 978-3744

Wednesday, June 21

Carlos Bonell, concert, *Guitar '78*. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information, 978-3744.

Wednesday, June 21 (continued)

Lovejoy's Nuclear War and *Doctor Strangelove: or how I learned to stop worrying and love the bomb*, OISE film series. First film produced by Green Mountain Post Films, second directed by Stanley Kubrick. Auditorium, OISE. First film at 7.30 p.m., second at 9 p.m. Admission \$2.50 double bill, \$1.75 second film only. Recorded information about films, 961-3035; other information including subscription tickets, 923-6641, ext. 728. (Graduate Students' Association)

Guitar Week '78. Coinciding with guitar festival, ROM will have workshop and concerts on Tuesday, Wednesday and Thursday afternoons. Information 978-3690.

Thursday, June 22

Turibio Santos, concert, *Guitar '78*. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information 978-3744.

Not a Pretty Picture, OISE film series. Directed by Martha Coolidge. Auditorium, OISE. Two screenings, 7.30 and 9.30 p.m. Admission \$2, senior citizens \$1. Recorded information about film, 961-3035; other information, 923-6641, ext. 728. (GSA)

Friday, June 23

Alpha-Feto Protein in the Diagnosis of Fetal Abnormalities, lecture. Prof. Tim Chard, St. Bartholomew's Hospital, London. Auditorium (18th floor), Mount Sinai Hospital. 9 a.m. (Clinical Biochemistry and SGS)

Friday, June 23 (continued)

Abel Carlevaro, concert, *Guitar '78*. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information, 978-3744.

Saturday, June 24

A Quest for New Music, concert, *Guitar '78*. World premier performances of award winning works in an international concert by Liona Boyd, Canada; Leo Brouwer, Cuba; Carlos Bonell, England; Turibio Santos, Brazil; and Abel Carlevaro, Uruguay. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students and senior citizens \$2. Information, 978-3744.

Midsummer's Eve Party. Hart House Farm: saunas, food, dancing, kite flying, Scandinavian bonfire on the pond. Buses leave Hart House at 3 p.m. Tickets \$2.50. Reservations, 978-2446.

Sunday, June 25

International Congress

Government assistance is available to persons undertaking to invite an international congress to meet in Canada. Conference Management Associates will provide assistance in concert with appropriate agencies to individuals who wish to develop an effective invitation programme.

This includes realization of receptions and inspection visits by site selection committees, evaluation of possible competitive invitations, development of a formal presentation to the head organization, and development of attractive, well-documented support materials. Travel assistance may also be provided.
